- SEE - France

Context

asde was created in Barcelona, Spain on 1999 as a joint effort of professionals both from the South and the North with sound experience on development co-operation. The three dimensions of **asde** are:

asde habitat:

- Housing, water and sanitation projects
- World habitat guides:
 - Home, world housing guide
 - Techno, world habitat technologies
 - Info, world water guide

asde environment:

- Environmental projects

asde rural:

- Rural integrated development processes.
- Technical assistance to sustainable agricultural production systems.

asde

alternatives for sustainable
development

What is asde

asde is an international organisation highly specialized in European Commission projects, devoted to fostering and supporting international organisations of development, NGOs, community-based organisations and other civil society movements who are working in the habitat, environment and rural integrated development, sectors.

Objectives

To support, strengthen and promote initiatives on:

- Improvement of habitat conditions with emphasis on land access and housing, water and sanitation.
- Improvement of the quality of the environment and strengthening of environmental programs.
- Fostering sustainable rural integrated development.
- Training for local development and civilian participation.

Actions

- To act as promoter and pillar for the development and strengthening of partnerships, consortia and south-south, north-south and south-north exchanges and networks.
- To channel and organise training and technical-financial assistance for housing, environmental and integrated rural development projects.
- To facilitate access to international and local funding for NGOs, community-based organisations and other social organisations.

Activities

Along with our Southern and Northern partners, **asde** acts as promoter and pillar for projects and programmes by:

- Project assessment and preparation for submission, and fund raising.
- Financial and economic viability design.
- Design of training and project management systems.
- Creation and distribution of project management ICT tools.
- Training and assistance on technology with emphasis on the use of local materials.
- Management, monitoring and evaluation of sustainable development programs and actions.
- Participatory project cycle management workshops.

Where we work

Africa, Asia, Latin America and the Caribbean, and Europe.

Languages

Spanish, English, French, German, and Portuguese.

Funding sources

asde is mainly funded by the European Commission having other sources from public and private European agencies and other international development funds.
